VoiceBoxer

To whom it may concern

It's my pleasure to recommend Fabienne Coupe for her services.

Fabienne has been working on several assignments on VoiceBoxer remote simultaneous interpretation platform since June 2016.

During this time Fabienne has worked on English << >> French assignments on several topics (Socio-political, Health, Compliance) for our customers (both NGOs and corporate) and has gained a lot of exposure and mastered the skills needed for remote simultaneous interpretation. What is more, it is easy to work with Fabienne, she is very responsive and prepares with care for each assignment.

Our customers have been really satisfied with her interpretation skills and we are continuously very satisfied with working with her.

Kind regards,

Triin Kristian
